BRINGING BUSINESS BACK TO WHYTELEAFE

In recent years, we've seen the decline of shops in Whyteleafe, and many have closed due to online shopping, as well as large out of town shopping centres. At one stage we had less than 50% occupancy rates.

Sakina has been working in the community to bring businesses back to our area, and thanks to her efforts, there is now a full complement of lovely, varied shops to visit. Along with this, Sakina campaigned to get hanging baskets installed in our village.

CHAMPIONING OUR VILLAGE

As a local resident for many years, Sakina is active in championing our village. Her work alongside the Whyteleafe and Kenley Community Hub has helped local residents during the pandemic.

Whyteleafe's current Councillors haven't listened to residents' concerns or delivered for local people. Sakina has fought for the benefit of Whyteleafe residents, by pioneering a scheme to get a safe crossing on Godstone Road.

If she's working this hard for Whyteleafe residents already, imagine what we can achieve together if she is elected?

TAKING ACTION FOR WHYTELEAFE

Sakina has a proven track record of delivering for Whyteleafe residents. Her work for the community over 16 years as a Councillor has changed our area for the better, such as getting CIL money to expand the Whyteleafe Surgery.

She will work with Claire Coutinho MP to reduce the number of HGVs on our roads, work with residents to solve our problem with parking, lobby the Village Council to invest in extra street sweeping, flower boxes and to install new railings in our village.

Tandridge District Council elections **6 May 2021**

A VIBRANT, WELL CONSIDERED FUTURE FOR TANDRIDGE

Conservative action at Tandridge District Council, and a promise of more - making Tandridge a better place to live, work and raise a family.

HELPING THE VULNERABLE

With greater awareness that many are now suffering from isolation, loneliness and mental health issues, our services and our cooperation with social and health services reflect increasing support to those groups. We have initiatives with visits, day clubs, assisted travel, in our parks, in housing, for the homeless, and in leisure services plus a joint protocol with Surrey for children in care.

LOCAL HOMES FOR LOCAL PEOPLE

We will plan for homes needed locally, which can also be accommodated environmentally, in a strategy appropriate to Tandridge that controls development. We plan to spend £17m for 77 homes for first-time buyers and those needing social housing.

Protecting and Improving our Communities

eastsurreyconservatives.org.uk

PROTECTING OUR ENVIRONMENT

We have protected Tandridge's Green Belt for over 60 years and we will continue to preserve our countryside, villages and towns. We now have a Climate Change Action Plan seeking to be carbon neutral by 2040. Our waste collection services are highly rated with the best recycling rate in the country and we will relentlessly enforce action against fly-tipping.

FINANCE & INVESTMENT

Despite funding cuts the Council has delivered a balanced budget with a low District Council Tax whilst providing good services. We work with business, Surrey & Government seeking funds to improve town centres such as Quadrant House in Caterham, for transport improvements and the Lingfield Nature Reserve.

WHAT WE'RE DOING FOR TANDRIDGE

DELIVERING A SUCCESSFUL VACCINATION PROGRAMME

The Conservative Government has been responsible for one of the most successful vaccination programmes in the world, working with our wonderful NHS and volunteers.

IMMEDIATE SUPPORT IN THE PANDEMIC

We said those families who are "most in need" don't have to pay Council Tax. And we assisted 1500 local businesses with the distribution of £18m in grants. We set up with our MP an Economic Task Forum to help and advise businesses, and a Youth Hub for young people.

ENSURING ECONOMIC RECOVERY

By working closely with our MP Claire Coutinho, £80m support cash will flow to East Surrey this year. The furlough scheme has supported 8,400 jobs in East Surrey; there have been 3,300 claims under the last tranche of Self Employment Income Support and there were 6,960 people on Universal Credit benefitting from the uplift.

PROTECTING THE FUTURE FOR
TANDRIDGE DISTRICT
